Career Objective

A proactive and analytical B.E graduate in Computer Science (Artificial Intelligence and Machine Learning) with a strong foundation in software development and emerging technologies. Seeking opportunities in a growth oriented company where I can apply my knowledge and acquired skills to real-world challenges and contribute effectively to team success.

Education

Bachelor of Engineering (B.E.) – Computer Science (Artificial Intelligence & Machine Learning)

Theem College of Engineering, Boisar | 2022 – 2025 | CGPI: 7.90 / 10

Diploma in Information Technology

Pravin Patil College of Diploma Engineering and Technology, Mumbai | 2019 – 2022 | Percentage: 78.75%

SSC (Secondary School Certificate)

Abhinav Vidya Mandir High School, Mumbai | 2019 | Percentage: 65%

Projects

- Fraud Payment Detection Search Engine :**
Tools: Python, Machine Learning, Pandas
- Built a system to detect and flag suspicious online transactions.
- Online Voting System:**
Tools: PHP, MySQL, HTML/CSS.
- Designed a secure, web-based voting system with authentication features.
- Focused on basic encryption and voter data integrity.
- Aahar Donation App:**
Tools: Android Studio, Firebase
- Developed a mobile app to connect food donors with NGOs.

Internship / Training

Cybersecurity Training Intern: Microsoft CyberShikshaa Program, ICT Academy | Jan 2025 – Feb 2025

- Gained exposure to threat analysis, ethical practices, and digital protection strategies.
- Conducted in collaboration with Theem College of Engineering under Microsoft's CSR initiative.

Certification

- Cybersecurity – CyberShikshaa for Educators**, Microsoft & ICT Academy | Jan 2025 – Feb 2025
- AWS Academy Graduate – Data Engineering**, Amazon Web Services (AWS) | Dec 10, 2024

Technical Skills

Languages: Python, Java, SQL
Web & App: HTML, CSS, Firebase, Android Studio
ML & Data: Pandas, NumPy, Google Colab, Excel
Tools: Git, VS Code, Jupyter Notebook
Cloud: AWS (Data Engineering)
Productivity & Editing Tools: Microsoft Word, Google Docs, Google Slides
Data Visualization & Reporting: Power BI, Microsoft Excel

Soft Skills

- Strong communication and documentation
- Team collaboration and leadership
- Problem-solving and analytical thinking
- Time management and task prioritization
- Creative thinking and adaptability
- Fast learner with a growth mindset
- Ability to work under pressure and meet deadlines

Achievements

- Presented a research paper titled “Fraud Payment Detection Search Engine” at the 4th International Conference Trends and Heralds in Engineering Excellence and Metamorphosis.
- Led a 4-member team during the final year project, managed project timelines, assigned responsibilities, and successfully delivered faculty presentations.
- Participated and won medals in annual sports event.
- Recognized by faculty for an innovative Android app idea connecting food donors with NGOs.
- Consistently appreciated for high-quality presentation and documentation.
